April 2026 GEO Performance Report

Stability Lab

Stabilitylab currently appears in **65% of AI-generated responses** across ChatGPT and Gemini for Vestibular Rehabilitation-related queries in Vancouver, with an industry rank of 3.15 out of tracked competitors. Visibility is strongest on ChatGPT at 80%, with notable ranking performance on high-intent prompts like "dizziness and balance clinic Vancouver" (#1.25 avg) and "clinic for chronic dizziness Vancouver" (#1). There are clear opportunities to improve visibility on lower-ranked prompts such as "concussion therapy Vancouver BC" and "concussion rehabilitation Vancouver clinic," where rankings suggest room to strengthen AI presence through targeted content and authority-building.
